PowerAcoustik Cap Cell

•Our Cap Cells are a fusion of both products. The Cap Cell offers auxiliary power with the ability to enhance the transient notes, often suppressed in car audio systems with an OEM battery, while being able to reinforce the battery during long, intense bass notes. A second alternator is not necessary, making the Cap Cell a perfect addition and an affordable way to supply the necessary power for a system. **Features:** •Satin chrome finish •16 VDC •3~6 year cycle life •Digital volt meter •LED display
