Kakuro Game System

Meet Kakuro, the newest puzzle craze from Japan! Sometimes called "Cross-sums", Kakuro is Sudoku's bigger (and harder) brother. Kakuro puzzles resemble crosswords which use numbers instead of words. The goal of the game is to fill all blank squares in the grid with only the numbers 1-9 so that the numbers entered add up to the corresponding clues. When the grid is filled, the puzzle is complete. •Mfr. #KUR-325 •**Limited quantities**

Tool-Less Twist-n-Lock "F" Type RG-6QS Connector

No crimp or compression tools needed! These weatherproof, gold-plated "F" type connectors feature a unique, two piece design. Just slip the back of the connector over any RG-6 quad cable, strip the end of the cable, and twist-on from the front connector plug.

The connector's specially designed split-lock ferrel tightly grips the cable when twisted together during final termination, and the o-rings provided in the package add weatherproof protection for outdoor installations (pack of two). **Limited quantities.**
