HD POWERLINK SYSTEM

SEND DIGITAL CABLE, SATELLITE, OR DVD MOVIES AND SHOWS TO YOUR TELEVISION VIA EXISTING POWER LINES

BRING SOME STYLE INTO YOUR HOME. AND SAVE MONEY.

The latest revolution in HD home theater technology. The HD Powerlink System allows you to connect your HD devices (such as cable boxes and DVD players) to your HDTV or HD projector by sending the signal through your existing power lines – using ordinary outlets. It transmits the highest quality HD signal available up to 1080p. And best of all, it's a lower cost alternative to higher priced professional installation. Now you can make your home theater arrangement cleaner, stylish and flexible. No need to put a hole in your wall, or your wallet.

FEATURES

- » Affordable – no professional installation required
- » High Performance – Transmits up to 1080p signal
- » Flexible – move your HDTV anywhere in your living space
- » Clutter-free – no more messy wires
- » Re-construction-free – no punching holes
- » Seamless – Use your existing remotes to control devices
- » Created to fit behind your flat panel HDTV

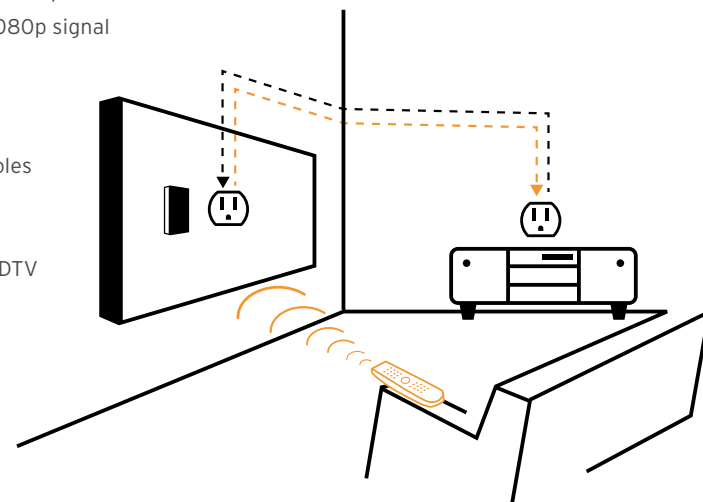

1 YEAR LIMITED WARRANTY

RECEIVER HIDES BEHIND YOUR HDTV!

NO EXPENSIVE PROFESSIONAL INSTALLATION FEES

SENDS UP TO 1080P THROUGH YOUR POWER LINES

IT'S YOUR ROOM.
DESIGN IT THE WAY YOU WANT IT.

If you're of the *less is more* persuasion, you know just as well as we do that nothing clutters and disrupts the flow of a living space as much as stray wires and tangled piles of electronic cords. The HD Powerlink from Acoustic Research gives you the power to clear away the mess. Simple plug and play connectivity allows you to set up your home theater experience the way you want.

UNLIMITED OPTIONS.

Long gone are the days of stuffing all of your electronics into one corner of the room. The HD Powerlink utilizes your home's existing power lines to send content from your components* to your TV. So go ahead, rearrange the room, give yourself the freedom to enjoy your space.

*requires HDMI connection

WOULD YOU RATHER HAVE
THIS OR THIS?

- :: NO MESSY WIRES
